## **Instruction Manual**

### **Pinch Valve model GS.21**

Sleeve valve MOD. GS.21 is provided with balanced-pressure hand-closing members achieving closing with minimal sleeve strain.

Drive mechanism is fully closed within valve body.

Closing occurs by pressing a screw on a plug that squashes sleeve, for a partial or total closing.

In case of need, sleeve replacing is recommended, therefore, for an excellent valve operation.

#### **Sleeve replacement:**

1. Unscrew screw socket (item 16).
2. Unscrew nut (item 4) and remove washer (item 5).
3. Unscrew and remove bolt, nut and washer (items 15-13-14).
4. Take out lower valve body (item 10).
5. Unscrew bronze nut (item 17) and take out plug (item 6).
6. Unscrew and remove socket head screw and washer (items 18-19).

To assemble, reverse procedure.

**N.B.** All item numbers refer to our technical catalogue.
